
ANTI-VIRUS 9.0

ESSENTIAL PROTECTION THAT WON'T GET IN YOUR WAY

IS YOUR ANTI-VIRUS GETTING IN THE WAY OF USING YOUR COMPUTER?

AVG's new high-speed anti-virus/anti-spyware combo scanner is smarter than your average scanner. It keeps track of what's already been scanned and found clean. Result: faster scanning that doesn't get in your way.

AVG'S SECRET WEAPON

AVG Anti-Virus 9.0 also has a secret weapon other anti-virus products don't have. It has LinkScanner®. LinkScanner takes over where your anti-virus doesn't go – into the depths of web pages you haven't even visited yet.

LinkScanner gives you a vital extra layer of protection you won't find in other anti-virus software. And you can use it in combination with firewalls and anti-spam products from other companies with no loss of protection or PC performance.

Most web threats these days are literally here today, gone tomorrow. So the only way to protect yourself is to use software that checks the page behind every link at the only time that matters – right before you click on it.

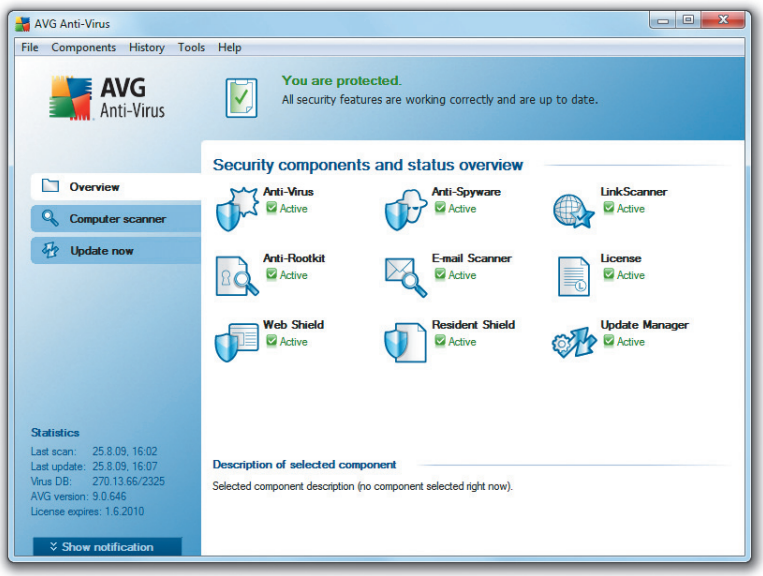
Whenever you're on the web, the moment you go to click on a link, LinkScanner analyzes the page behind that link to tell you whether there's something nasty hiding there.

For added peace of mind, you also get safety ratings for your Google, Yahoo! and Bing/MSN search results.

AVG Anti-Virus 9.0 is simply smarter security that doesn't slow you down.

It doesn't waste your time. It just keeps you safe – online or off.

- ✔ **High-speed anti-virus/anti-spyware** with auto updates
- ✔ **LinkScanner®** for safe surfing and searching
- ✔ **Anti-phishing and anti-spam** for a safe, uncluttered inbox
- ✔ **WebShield** for safe social networking, chatting and downloading



80 million people trust us to keep them safe online – and so can you.

Why AVG?

We've designed our software so you can surf, chat, work, and social network while we take care of security. We're so quiet and efficient, you won't even know we're there. But you can rest assured that we are.

- ✔ AVG's unique LinkScanner® scans web pages before you visit them.
- ✔ AVG's enhanced scanner keeps your system running smoothly – online or off.
